## BOY DROWNED.

### George Pinson Loses His Life in Tug River.

### Body of Seventeen-Year-Old Native of this County Brought Home for Burial.

George Pinson, 17, and Albert Proffet, 16, were drowned in Tug river at Goodman near Williamson Friday night.

The young men went to the river to go in bathing. Evidently they did not know the depth of the water and although neither could swim, they plunged in and were soon beyond their depth.

The water at the point was from eight to twelve feet deep and both were struggling for life in a moment after they had jumped in. Albert Brumfield, a lad of 12 years, went to the river with Pinson and Proffet, but became frightened and refused to enter the water.

Dave Childers, assistant bank boss at Goodman, was fishing just below the scene, and witnessing the struggles of the two men called to Brumfield and asked if they were in danger. He first thought the boys were diving.

The Brumfield boy did not realize at first that the men were in danger but thought they were by the time Childers called to him. Childers propelled his boat toward the men as fast as possible and came near reaching one of them before he went down.

Both bodies have been recovered. The body of Pinson was shipped to Louisa and that of Proffet to Tazewell county, Va.—Mingo Republican.

Young Pinson was the son of Mr. and Mrs. James Pinson, formerly of Lick creek, this county. They moved to Goodman in December last, where Mr. Pinson worked in the mines. The body was carried to the old home where it was interred. The services were conducted by the Rev. Priley. After the funeral the family returned to Goodman.

### Special Term of Elliott Circuit Court.

Scarcely had the echoes of the proceedings of the regular May term of the Elliott Circuit Court died away, when Judge Hannah saw cause to call a special session of the Circuit Court. The Court instructed the grand jury to investigate the whiskey traffic in the county especially, and it was mainly for this purpose that they were called. It seemed that the whiskey peddlers were getting real game, as the regular term had just closed, but Judge Hannah really "slipped one over on them" when he called the special session.

### Bridge Survey.

By direction of the War Department a public hearing in the Norfolk and Western Railway Station at Kenova, W. Va., was held Thursday by the board of officers of the United States Engineers, to consider the superstructure of the Norfolk & Western bridge across the Ohio river at Kenova. The board was to consider evidence as to whether the bridge is an obstruction to navigation. Maps of the bridge and river at Kenova were inspected by rivermen in the interests of the United States Engineers.

### JAMES STOKOE DEAD.

James Stokoe, married, aged 27 years, died at the residence of Brothier Justice, this city, early last Monday morning, of consumption. The remains were interred in the Fulkerson graveyard the following day. He was a son of Nicholas Stokoe, who recently died at Williamson.

### SOME SNOW.

The change of cooler weather here this week is accounted for by the presence of snow at the Brunswick—N. B. Snow, of Louisville.

### "My Old Kentucky Home."

About two months ago Sam Fletcher and family, of Lick Creek, went to Whitesburg, Texas, for settlement. In the party was his aged mother, Mrs. Jane Fletcher. When the train from Ashland pulled in at the Louisa station Wednesday morning about the first one to get off was Mrs. Jane Fletcher, bonnetless, but happy to again plant her feet on Lawrence soil. With her was her pretty granddaughter, who looked her delight at being once more in her "Old Kentucky Home." Mrs. Fletcher said she was sorry to come home looking as though a Texas cyclone had hit her, but she just couldn't help it. She carefully put her head over the car window and "goodness, before I knew it, almost, the wind took it off and I haven't seen it since." They go, but they come again. We refer to the people who go west, not to bonnets—they seldom return.

### Was Born in This County.

The death of W. S. Meek, one of Johnson county's most highly respected citizens, occurred at the family home, on Buffalo creek, that county, a few miles from Paintsville, on last Friday, as a result of long suffering from the effects of that dread disease, cancer.

Mr. Meek was born at Old Peach Orchard, Lawrence county, on the 19th of October, 1855, and was consequently past 55 years of age at the time of his death.

### DEATH OF AGED CITIZEN.

### A. J. Conley Passes Away After Four Months' Illness.

On Saturday morning, May 20, at his residence in this city, Asa Johnson Conley, died after a painful illness of many weary weeks, aged 72 years. He had not been in robust health for several months, and when from a slight injury to one foot gangrene ensued, a once vigorous constitution, already enfeebled by age and infirmity, was not able to resist the ravages of so serious a malady. So, in spite of the best care and skill, and after many days and nights of alternate hope and fear, the end came peacefully and hopefully. A widow, two sons, (M. F. and M. L.) and one daughter, (Miss Stella) survive. Of these all were present at the last scene except M. L. Conley, of Cannel City, Ky., who could not be reached until his father had died.

Mr. Conley came to this city from Johnson county nearly half a century ago. All the succeeding years, except possibly one, were spent in Louisa. The funeral occurred on the day following his death, and was one of the largest ever witnessed in Louisa. Mr. Conley had been a Mason, and not for many years. If ever, had so many brethren of the mystic tie been seen together on a similar occasion in this city. The services were held at the home of the deceased had built, in the spacious yard, among the trees he had planted, and in whose shade he was accustomed to sit. Amid these fitting surroundings the obsequies were held, the religious service being conducted by the Rev. W. L. Reid, of the M. E. Church, South, the church of which Mr. Conley had been a member since 1886, and Apperson Lodge F. and A. M. clothed in regalia, spoke the words which, from time almost immemorial, have been uttered over the body of a departed brother. Under a wealth of floral beauty, the offering of friends, the deceased lay encoffined, a look of peace on the well known features. After those who wished had looked, the body was taken to its last earthly resting place—beautiful Pine Hill, to sleep that sleep that knows no earthly waking.

But Mr. Conley had an abiding faith in Him who said, "I am the resurrection and the life, he that believeth in me shall never die." Even when Azrael had cast his dread shadow over the couch of pain the weary, pain-racked man had raised a hand heavenward and said, "I am ready." Therefore, the sorrowing ones he left sorrow not as those who have no hope.

Mr. Conley was born March 17, 1839. Was married in 1866 to Miss

Elizabeth Leslie, who died in 1882. Nearly three years later he married Miss Mary Burgess.

The following relatives from other places attended the funeral: B. F. Conley and daughter, Miss Bertha, of Elm Point; Mr. and Mrs. J. C. Mayo, of Paintsville; Mrs. Florence Leslie and little son, of Greenup; Mr. and Mrs. M. L. Conley and little son, of Cannel City; Mr. and Mrs. Gordon Burgess, of Klax; Judge Finley E. Fogg, of Paintsville, was present.

Vinson Lodge, of Fort Gay, W. Va., attended in a body. Several members of the Masonic Order from Richardson and other points took part in the services.

### Examiners Still at Work.

As the News goes to press the board of county examiners is still at work grading the work of applicants for teacher's certificates. The board has ascertained the fact that only four of the 84 applicants will receive first class certificates: M. E. Sparks, with a general average of 91 and 8 eighths; Miss Nora Roberts, 90 and 5 eighths; R. N. Boggs, 89 and 4 eighths; and J. L. Thompson, 87 and 4 eighths. There will be about 40 total failures. We will publish a full list next week.

### Narrow Escape.

Mrs. Alice Riffe, formerly of this city but now of Bolta Fork, narrowly escaped serious injury and perhaps death at the C. and O. depot Tuesday morning. She was going to take No. 37 and was at the depot, but she was not aware that the train had started until after it had pulled out. She then started on a run and reached the train in time to grasp the platform railing. She got a hard bump, and would have fallen under the wheels but for assistance. The train stopped and Mrs. Riffe got on board.

### Home From Texas.

M. and Mrs. H. G. Wellman returned from a long stay in Texas, where they went for the good of Mrs. Wellman's health. Her friends will be glad to learn that she is much better. She will spend the summer with her mother on the farm. While in San Antonio they frequently saw George F. Wooten, formerly of this city, and his family.

### Oldest Married Couple.

The London, Ky., Sentinel says John Shell, of Leslie county, is 102 to 104 years old, the exact age being in doubt. His wife is also 102 years of age. Both are in good health and the old man rides his mule to town. If age hardens it would not be difficult to tell what church the venerable brother belonged to.

### "MOTHERS' DAY."

### Special Church Service for Mothers and "Shut-ins" Next Sunday.

On next Sunday morning "Mother's Day" will be observed at the M. E. Church, South, and all mothers are urged to be present. Also, the same service will be made of special interest to all persons above sixty, and to those of all ages who by reason of physical infirmities are not privileged to attend public worship regularly. Conveyances will be furnished for all who require them. It has also been suggested that if any are found who can not get to the church, a call will be made during the afternoon by a party of church members, and a brief service held. These visits if made will begin about two o'clock.

No service of any kind will be held at the church at night.

Mothers Day was observed two weeks ago throughout the entire country. The observance was delayed here by conflicting events. The universal custom is for every person attending the service to wear a white flower.

It is hoped that all who come within the scope of this special occasion will be present.

## KILLED BY CAR.

### Winfield Austin the Victim of an Accident.

### West Jefferson, Ohio, the Scene of Fatality to a Lawrence County Young Man.

Winfield Austin, formerly of this county, met his death in horrible shape last Tuesday night at West Jefferson, O., by being ground to pieces under the wheels of a trolley car. Accompanied by his father, John Austin, the remains of the unfortunate young man were brought to this place via the N. & W. Wednesday morning, and were conveyed to the Mike Thompson graveyard, near Charley, this county, for interment. He was 25 years old and a widower.

Mr. Austin was employed in a bottling works at West Jefferson, and lived near a trolley line at some distance from town. He had worked until a late hour on the fatal night, and had gone to the track to wait for the last car. It is supposed that he sat down on the track and fell asleep, when the car came upon him. He was dragged 500 feet before he was released, dead and horribly mangled.

### Is Sister of John Gartin.

One of the big charities of Chicago, the Children's Day Association held its annual meeting recently and re-elected Mrs. L. I. Funk president. A Chicago paper says: Mrs. L. I. Funk has been actively connected with the annual tag day ever since the plan started. She was re-elected president of the Children's Day Association at its annual meeting last Thursday. She is also vice president of the Children's Benefit League, the organization which has the management of tag day.

### Removals.

T. J. Chapman has sold his Lick creek farm to John Henry Preece, and will move with his family to Zetavia, Clearmont county, O. Mr. Chapman is an excellent man, honest, sober and industrious, and the community in which he lived will miss him.

Capt. W. C. Bartram, formerly a well known citizen of Fort Gay, is now located at Carpenter, O. Like Mr. Chapman the captain was a good man to have around. How long will they stay away from Sandy?

### Killed in Catlettsburg.

Green Stamper, aged 55, was run over and fatally injured, by train No. 15, on the Chesapeake & Ohio railroad, Tuesday night, a few feet below the freight depot of the railroad company, in this city. The man was taken to the Huntington C. and O. hospital, on the same train by which he was injured where he died from his wounds.

Stamper was a married man and has four children and his home was at Clayton, in Rowan county, 12 miles from Morehead.—Catlettsburg Tribune.

### SUCCESSFUL OPERATION.

J. M. Clay, of Louisa, was in town yesterday evening, having returned from Huntington, where he had taken his little daughter, Carrie, to be operated on for a trouble with her hearing. The operation was performed and Mr. Clay says that the child shows a marked improvement already. Mr. Clay returned to his home this morning.—Catlettsburg Tribune.

### HEAD OF COMBS FAMILY DEAD.

Edward Combs, aged 90 years, one of Letcher county's veterans and father of the extensive Combs family of the county, died at his home near Ermine, two miles above Whitesburg, after a illness of the grip. He leaves hundreds of descendants in Eastern Kentucky. His wife survives him.

### Wins in Athletic Contest.

Herbert H. Moore, a Lawrence county boy in State University, is paying attention to his physical body as well as to the intellectual portion, having in mind the stage concerning "a sound mind in a sound body." The readers of the News know how well he has trained his mental powers, and they will be glad to learn that he has won success on the athletic field. He is attending State University, and at the recent meet of the team of that school with the team of Transylvania Mr. Moore won the championship for the broad jump, distance 18 feet, 10 inches.

Mr. Moore has also been elected chairman of the O'Rear club formed by admirers of the Judge in the school.

### Bodies Dangle From Tree.

Campden, Ky., May 23. — Letcher county authorities are investigating what appears to be a quadruple lynching of four pearl hunters who made successful finds in the Kentucky river.

It is reported that the nude bodies of four men have been discovered swinging to a tree in the woods in a deserted part of the county. Dr. F. H. Lewis identified one of the victims as J. W. King, a pearl hunter, who a few days ago dug up a pearl from the river bank valued at \$1,000.

The other three are said to have hailed from Oregon, and it is believed that they were all murdered by men and robbed of their pearls.

### STRENGTH OF PAYNTER.

### His Record Best Refutation of Campaign Utterances of Opponents.

Frankfort, Ky., May — Reports coming in to the headquarters here of United States Senator Thos. H. Paynter, who is seeking an endorsement in the Democratic State primary election of July 1, are that he is growing in strength daily, as Kentucky Democrats become better acquainted with the record he has made, and is making, in that high office, and with the character of demagogic campaign that is being waged against him. The information received is to the effect that the voters are realizing more clearly the caliber of Senator Paynter, and of his opponent, the Congressman from the First District and to know that the latter does not measure up to the big job he is seeking.

Senator Paynter continues to conduct his campaign in the high-class, dignified manner in which he first presented his candidacy, and he has received letters from hundreds of Democrats, living in every section of the State, commending his course in avoiding acrimonious joint debates, that could only result in injury to the party which has in the past so signally honored him and he relies upon his record as the best evidence of his ability to faithfully and intelligently serve his party and his State.

How Senator Paynter ranks among the big fellows at Washington recently has been attested in the committee assignments in the Senate. He was made chairman of the committee to examine into the civil service, and is a member of the committee on Claims, Judiciary, Industrial Exposition, Philippines and Privileges and Elections. No new Senator could hope to take such a commanding position in the Senate, and, in the event of the election of a Democratic President, as now seems assured, no one now in Congress could attain better prominence or do more for his State than he.

That Congressman James' plan of campaign has not met with the approval of the people is best evidenced in the newspaper criticisms of some of his wild declarations.

"Nobody believes that Paynter is dishonest," writes Editor Leigh of the Bowling Green Messenger, referring to James' utterances.

"Democrats should stand together and build each other up by encouraging public confidence in all their leading men, so that in the general election any of them can beat any Republican," advises the Winchester Democrat.

"Paynter was an able jurist be-

fore he went to the Senate and has proven himself just as able a law maker as he was a judge," writes Editor Westover in the Grant County News, and continues: "If the Democrats are wise they will keep Paynter where he is for another term."

In another editorial paragraph the editor of the Winchester Democrat says: "It will be hard to make the people of Kentucky believe that he is not honest, patriotic and a Democrat. His vote for Lorimer, which James thinks an awful crime, really shows moral courage of the highest kind. Paynter knew it to be an unpopular vote, but after hearing all the evidence he did not think it sufficiently strong to convict."

The editor of the Henry County Local writes: "Before the Lorimer episode we regarded Senator Paynter with comparative indifference, but by virtue of his part in it, he has risen high in our estimation. Such a man who can resist the temptation to play to the galleries, for the sake of his duty as he sees it, deserves to be retained in the Senate."

That veteran of the Kentucky press, Col. W. P. Walton, of Lexington, writing in the Herald, reviews Senator Paynter's responses to the attacks made by James and concludes: "Senator Paynter's friends are greatly elated over his strong, manly and honest statements, and they think the man who is charged with deliberate intention to misrepresent him will pay dearly for it. The Senator is a gentleman, a Democrat and a man of the highest integrity."

### Hospital Notes.

A few days ago Mrs. Norris, widow of William Norris and daughter, of Warren Robinson, of Fort Gay, was operated on at Riverview hospital for a serious trouble by Dr. York.

On Saturday last Mrs. Albert Ratcliffe, of Clifford, submitted to an operation for cancer of the breast, the entire gland being removed by Dr. York, Drs. Bromley, Wellman and Wooten assisting. Mrs. Ratcliffe is 60 years old.

On the same day Miss Lizzie Rice, of this city, was operated upon for tumor, by Dr. York, with the same corps of assistants.

On Sunday Green Hall, of Mod. Floyd county, was operated upon by Dr. York for necrosis. All the operations were successful and the patients are doing well.

### Reservoir to be Cleaned.

The condition of the water being furnished to patrons by the Louisa Water Company has become so bad that the city council met in special session Wednesday night to take some action against the company. Representatives were present and promised to begin immediately the work of cleaning out the reservoir. Under this promise the council deferred action.

### LOUISA PLAINTIFFS LOSE.

### Decision in Elliott Court in Case of Moses Burgess, Etc.

Monday morning of last week Judge J. B. Hannah handed down a lengthy opinion in the case of Jess Walker, plaintiff, and Martha Watson, Administrator, etc. defendants. The opinion was a long one and decided the question of the identity of relationship of plaintiff and defendant, Moses Burgess, etc., to Dick Watson, of color, deceased. The Court, after a thorough consideration gave each of the parties a separate finding, and adjudged that none of the parties had proved a relationship to the deceased by a preponderance of evidence. Plaintiff filed motion and grounds for a new trial and defendant, Moses Burgess, etc., moved for an appeal to the court of appeals, which was granted. Elliott County Democrat.

Moses Burgess is a resident of Louisa. Some time ago Dick Watson died in Elliott county, possessed of considerable property. Moses claimed kinship and brought suit to recover as such from the estate.

The C. and O. pay car was distributing its favors along the Big Sandy line Wednesday.

Edward J. Myall, assistant cashier of the Citizens' Bank, of Paris, Ky., was found dead in his home with a bullet in his brain. No cause is assigned for the tragedy.

A post-mortem examination of the body of Rowland Tate showed death due to natural causes, and officials of the Eastern Kentucky Asylum for the Insane were exonerated.

Calhoun, Ky.—Attacked by a monster black snake, which he was trying to kill, L. Roy Thacker succeeded in dispatching the reptile after a hard fight. The snake was evidently been driven out of the lowlands by the high water and had taken refuge in the grass near the old waterworks plant. The snake was five feet long.

The Bath county grand jury was in session but a few days during this term of the Bath Circuit Court and returned only about a half dozen indictments, all for trivial offences. This is perhaps the smallest number of indictments ever reported by a Bath county grand jury. Just before adjourning the jury inspected and reported all the county buildings in a satisfactory condition.

### FORAGE CROPS IN KENTUCKY.

While grass will furnish abundant pasture for live stock during the next few weeks, yet it should be remembered that late in July and August pasture will be short. At that time also flies will be exceedingly hot. The best way to secure success with stock raising in the summer is to supplement the pastures with some forage crops, which will furnish green feed at the time when the pastures are parched.

Alfalfa will grow on many farms in Kentucky, and it will furnish pasture or selling from May to October.

Corn (stalks and all) cut in the roasting-ear stage and hauled to

the pasture, and thrown in feed racks or banks, will serve a useful purpose in supplementing the pasture during late summer.

All classes of live stock will do much better during the summer if some kind of green feed is fed to them in addition to what pasture they can graze during dry weather. Many farmers have begun a practice of cutting the green crops and hauling them to the barns, rather than allowing the cattle to pasture the crops. In this way three times the number of cattle may be maintained on a small farm that can be kept with a pasture system. But at the same time more labor is required. The best system for Kentucky farmers at present is to grow some additional pasture crop, such as alfalfa or clover, to supplement blue grass, and in addition to cut some green corn as it is needed for the live stock. Different varieties of corn mature at different periods and a continuous supply of green corn for late summer feed may be secured by growing different varieties for this purpose or by planting small patches of the same variety at intervals of two weeks.

In the North silos are filled in the fall and carried over winter and opened during the dry months of summer. The silage proves a good feed for both beef and dairy cows and also sheep at that time. The dairyman cannot afford to overlook this matter, for everyone knows that when a cow has fallen off in milk it is a difficult task to get her restored to a full flow. The driest part of summer is almost as trying a period on dairy cows as the wettest part of winter but the silage stove described will do much to remove the difficulty.

## NOTES OF THE FARM.

### COLUMNS OF INTERESTING NEWS THAT WILL BENEFIT FARMERS.

#### Fighting the Fly.

Rules for dealing with the fly nuisance. Screen all windows and doors, especially the kitchen and dining-room.

Keep the flies away from the sick, especially those ill with contagious diseases. Kill every fly that strays into the sick room. Do not allow decaying material of any sort to accumulate on or near your premises.

All refuse which tends in any way to fermentation, such as bedding, straw, paper waste and vegetable matter should be disposed of or covered with lime or kerosene oil.

Screen all food.

Keep all receptacles for garbage carefully covered and the cans cleaned or sprinkled with oil or lime.

Keep all stable manure in vault or pit, screened or sprinkled with lime, oil or other cheap preparation.

Cover food after a meal, burn or bury all table refuse.

Screen all food exposed for sale.

Don't forget, if you see flies their breeding place is in nearby filth. Be behind the door under the sink or in the cupboard.

If there is no dirt and filth there will be no flies.

#### Three Points.

Keep the young upward to move. Keep them in shape, the time of keeping them in form and proper balanced. Very often the direction from which the wind is blowing is the cause of the trouble.

Temperament has a considerable value in the horse breeding industry. Farmers should breed for temperamental disposition as well as soundness and symmetrical conformation. If they wish to realize top market prices for their horses.

Sweet potato plants require a great deal of heat and sunshine and care should be taken in planting them to look after this. The sweet potato vines should be planted in rows 1 1/2 to three and one-half to four feet apart, and the plants should be set from two to two and one-half feet apart. The soil should be hoed to the plants in the early stages of cultivation and this should be done regularly. If crowded the plants will not tuber well.

#### Young Ducks.

Do not let young ducks go to the pond or creek. There are two enemies awaiting them there. Turkeys destroy many of them, even though too small to swallow one. They will grab them from beneath and pull them under the water and hold them till they drown. Another is that ducklings will be attacked by cramps and die before they can get out of the water. Give the ducklings only what water they need to drink, so arrange that they will be the better for it and not be in danger's way.

#### Watch These Points.

Milk with clean hands. Clean the cows before milking. If filthy.

See that all udders in milk utensils are properly flushed with soda. Only well tinned metal vessels should be used for milk.

Clean all milk utensils properly and place them in the sunlight.

Remember dirt carries bacteria which cannot be strained out of the milk, hence avoid getting dirt in the milk.

Place the cream in cold water at once after separating.

Never run the cream directly from separator into can containing cream from previous skimming.

Never mix warm and cold cream. Stir the cream occasionally while cooling.

Keep the cream sweet in hot weather by changing the water of ten.

Keep the milk-house clean, well lighted and well ventilated, and use it for no other purpose except milk and cream.

Do not keep cream in rusty milk cans, pailers or buckets; the cream will not keep so well and the rusty utensils may produce a very objectionable metallic flavor.

Do not keep cream in musty cellars, nor in any place near vegetables, fruits, meats, soap of any other strong-odored provision; they taint the cream.

Stir the cream often so that it will be free from lumps. Only

fresh, sweet and smooth cream can be sampled accurately. When cream is sour and in poor condition, the test is usually lowered. Use a regular milk stirrer, skimmer or long-handled spoon, for stirring cream; avoid wooden paddles because they are unsanitary.

If properly cooled, and kept cool, cream will not be soured by a thunderstorm.

Deliver the cream as often as possible; not less than three times a week during hot weather and twice a week in winter.

### Do Ghosts Haunt Swamps?

No, Never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malarial germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy, only 50c at A. M. Hughes.

## Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, poor, impoverished blood. Nervous and pale people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach.

A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the Great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of dubious composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

Friday, May 26, 1911.

We are authorized to announce that R. C. McCLURE, of Louisa, Lawrence County, is a candidate for Representative in the Ninety-eighth District of Kentucky, comprising the counties of Boyd and Lawrence, subject to the action of the Republican District Convention, date for the holding of which has not yet been fixed. YOUR SUPPORT EARNESTLY SOLICITED.

The World is twice as large as it was a week or two ago. We are speaking of the Bath County World.

Senator Cox, in answer to Governor Hooper's criticism, declares the Republican party is a curse to Tennessee.

The greatest parade in the history of the organization marked the close of the Confederate Veteran reunion at Little Rock, Ark., recently. Kentucky veterans took an important part in the pageant.

A world-wide conference of representatives of every Christian creed for the purpose of negotiating church unity is proposed by the Rev. Dr. William T. Manning, pastor of Old Trinity, New York.

Herbert Cobb, aged 22 years shot down his sweetheart, Miss Ella Cravens, in her home in Hopkinsville Monday. He later tried unsuccessfully to commit suicide. The shooting is said to be the result of Miss Cravens' rejection of Cobb's suit.

Peace will not be declared as in effect in Mexico, nor will the general armistice be terminated until Francisco Leon de la Barra becomes Provisional President in succession to President Diaz, according to a statement made by Francisco I. Madero, Jr., at Juarez.

The only people who have the least doubt that Kentucky will go overwhelmingly Democratic next fall are the Democratic editors who would throw a fit if Senator McCrory is nominated. And these, really, only affect not to believe it. But all the same, these disgruntled pencil pushers are doing the party harm. Nobody objects to their saying what they please for their man, but it's neither just nor decent to throw dirt at the splendid man who, in spite of their mud-slinging, doesn't throw back and will be Kentucky's next Governor.

"There never was a time in your State's history when you were called upon in louder tones to do your duty than now," declared the Hon. Jo C. S. Blackburn, of Versailles, speaking to the Democrats of Owensboro and Warren county.

"If you lose this fight it means eight years continuous Republican domination in the State. If they get the fight, the chances are that you and I will die of old age before we ever see the flag of democracy unfurled from the State Capitol. The time has come to act now. The time has now come to redeem your State. State control and executive committee cannot do it; the governing bodies and machines cannot do it. There's but one power upon earth that can do it and in that power we abide with unquestioning faith. The Democratic voters of my State can do it for their own best interest."

A secret conference, which promises to have considerable bearing on the race for the Republican nomination for governor, was held Tuesday night, of last week, attended by Lieut. Gov. W. H. Cox and R. T. Franka, both candidates for the nomination for Governor, and their friends, including Hon. L. Bruner, Secretary of State; Elsworth Regenstein, Superintendent of Public Instruction; Lawson Reno, Collector of Internal Revenue at Owensboro; J. W. McCulloch, State Central Committeeman for the Second District; and McKenzie R. Todd, State Inspector and Examiner, who, it is believed, was Gov. Willson's personal representative at the meeting.

While the meeting was a secret one it is an open secret that it was held to devise ways and means to defeat Judge O'Rear. Sen-

ator Bradley, while in the State, was to good a politician to attend the meeting, but the birds in the hush know he will not allow the Judge to be nominated if he can prevent it.

Officially designated representatives of the Mexican Government and the revolutionists have signed a peace agreement at the customhouse in Juarez, intended to end the hostilities that have been waged in Mexico for the last six months. Though covering only the principal points negotiated thus far, the agreement practically records the concessions by the Government of those demands, which started on November 20 last, resulted in the armed revolution in Mexico. Telegrams announcing the signing of the agreement were dispatched throughout Mexico to revolutionary and Federal leaders alike.

Constitutional restrictions prevented the inclusion in the agreement of the fact that the rebels will be permitted to suggest to various State Legislatures the names of Provisional Governors, and likewise the fact that six of the eight members of the new Cabinet have been chosen by the revolutionists, but the agreement records that President Diaz and Vice President Corral will resign and that the Government is to concentrate its attentions on desired reforms.

## DON'T WAIT.

Take Advantage of a Louisa Citizen's Experience Before It's Too Late.

When the back begins to ache, Don't wait until backache becomes chronic.

Till serious kidney troubles develop.

Till urinary troubles destroy night's rest.

Profit by a Louisa Citizen's experience.

G. E. Pigg, of Louisa, Ky. says: "I cannot find words strong enough to express my thanks for the benefit Doan's Kidney Pills brought me. For a number of years I suffered from kidney complaint and was unable to get relief. The kidney secretions were highly colored and attended by a scalding sensation in passage. My back ached intensely and at times my suffering became so severe that I did not think I could endure it any longer. Doan's Kidney Pills went directly to the root of the trouble and removed every annoyance. I gladly give this remedy the praise it deserves." (Statement given January 27, 1908.)

The Christian Bible Schools of Boyd, Carter, Elliot, Floyd, Greenup, Johnson, Lawrence, Magoffin, Martin, Pike and Rowan counties, will hold their annual Bible School Convention at Olive Hill, June 2nd and 4th. The convention will open Friday evening, June 2nd, with the convention sermon by Rev. A. H. Reeves, of Ashland Saturday an all day session. This will be the Bible School day of the Convention and will be in charge of Brother Walter E. Frazier, State Field Worker for the Christian Bible Schools. An all day session on Sunday, Sunday morning a model Bible School, conducted by Brother Frazier, followed by a missionary sermon by Bro. H. W. Elliott, of Ephraim, Ky. The afternoon and evening sessions will be in charge of the C. W. B. M. led by Mrs. Cora Wilson Stewart, of Morehead. R. B. Neal, T. W. Donnellson, H. T. Martin, A. D. McMurry, H. B. Smith, F. C. Button, Miss Bertha Williams, and many other well known Bible School Workers will be present and take part in the convention.

The county officers from each county in district should attend, and each school in the district should send delegates. Free entertainment will be provided in the best homes in the city, please notify H. Clay Brown at Olive Hill of the number of delegates from your school, and if you have not already so send your school report to Miss Grace Morris, Grayson, Ky.

Let everybody come and help to make this the biggest Bible School Convention ever held in the 16th district. H. CLAY BROWN, Vice President.

## THE VALUABLE MULE.

A stockman, who has been making a specialty of handling Kentucky mules, tells the Standard Interior Journal that "the thing for Kentucky farmers to do instead of wasting time with tobacco is to devote their time to raising more, better and larger mules." In giving his reasons for the assertion he says:

"It will pay the average farmer better than raising either hemp or tobacco. There has not and will not be an over-production of mules. They never were scarcer or higher priced than now. I have been selling high-class Kentucky and Tennessee mules in Atlanta, Ga., the second largest mule market in the world for four and one-half months, having sold nearly 1,000 head, and fully one-half of this number averaged \$250 per head. For the benefit of our Missouri and Kansas friends I want to say Kentucky and Tennessee mule teams have brought the highest prices of any sold in Atlanta. As has been thoroughly demonstrated by myself and others, there is no place on the habitable globe where finer and better mules can be raised than in old Kentucky. Automobiles may effect the price of horses, but will never cause mules to sell any lower. Railroad construction, coal mining, farm work and many other uses requiring animal power make an increase demand for the mule, and as above stated the largest and finest mules command the highest prices. It costs but little more to raise a \$250 or \$300 mule than it does a \$150 mule."

## TAILORED SUITS REDUCED

This first reduction is a deep cut in price and is given on our entire line of wool suits & dresses with the exception of white serges, a look at the prices will tell a story of saving that is unusual for this season of the year and the stock is very complete and early selections will be sure to please.

\$10.00 Suits are reduced to \$28.75  
\$35.00 suits are reduced to 25.75  
\$25.00 Suits are reduced to 18.75

20.00 Suits are reduced to 14.75  
15.00 Suits are reduced to 10.75  
10.00 Suits are reduced to 7.75

This offer includes a magnificent line of wool dresses at the same range of prices as those quoted on suits. This is a sale that few can afford to miss who have the value of their money in mind and who desire to make such purchases as a substantial saving.

## ELEGANT SKIRTS REDUCED

We have one lot of fine panama and fancy mixture in skirts every one new spring styles and has been selling rapidly with those who desire a really fine line of garments. We have found that we have more of this class of skirts than the department should try to carry and have reduced the prices as follows:

\$15.00 Skirts are reduced to \$10.75  
\$12.50 Skirts are reduced to 9.75  
\$10.00 Skirts are reduced to 7.35

This offer must be seen to be appreciated and the skirts are exceptional in style and in quality and make-up.

## DEDICATION AT INEZ.

The Rev. Roscoe Murray was called to Inez Sunday for the purpose of dedicating the Baptist Church at that place. The occasion was a success in every sense of the word. It was a joyous reunion of the minister and converts. Rev. Murray having recently conducted a series of meetings there in which there were more than two hundred converts. The day was extremely hot but did not hinder the people from coming for miles and filling the large commodious church to its utmost seating capacity. The text for the "Dedication Sermon" was taken from the Lord's Prayer. "For thine is the kingdom and the power and the glory." In the afternoon the church

joined in surrounding the table and partaking of the Lord's Supper there being a large membership present.

These services together with another at night will not soon be forgotten. The spirit of the Lord was abundant in presence and altogether it was surely a great day in the Masters work.

## TESTAMENT TIMES BROOKLYN TABERNACLE BIBLE STUDIES

THE KINGDOM OF PEACE

Micha 4:1-5-May 23

"Tithes shall not lift up sword against nation, neither shall they learn war any more."

THE whole world has for a long time been boasting that civilization and Christianity have won the day, that the world has become God's Empire and that the blessings of the Millennium are ours to enjoy. Aid Conferences and Peace Councils and Peace Commissions have stared up for the moment, only to die down. The cry of "peace, peace," has brought no peace.

We are beginning to see that we have been deceiving ourselves into thinking that the nations of the earth are kingdoms of God. We are beginning to see that the Bible styles them "kingdoms of this world," kingdoms of the Gentiles, and that it tells us that "the Prince of this world" is Satan.

We see it all. The Kingdom of God, the Kingdom of Heaven, for which the Master taught us to pray, has not yet come. We are glad, however, that the Divine promise assures us that it will come and explains to us that the All-Wise Creator is now, first of all, preparing for His Kingdom by gathering from amongst mankind a worthy, saintly few, to be associates of their King and Redeemer in that Kingdom, by which the world is to be blessed.

But all are not yet convinced of these Bible truths.

To convince the more prejudiced nothing further should be necessary along these lines than to point out the difference between present conditions and those which the Scriptures declare will prevail when He who redeemed the world by the sacrifice of Himself will take His great power and reign as Messiah.

In Our Favored Land

The United States of America does not lead the world in the size of its standing army and in great battleships. She has no need to do so, having no threatening Christian (or nations) to menace her. Yet even this nation, walled about by thousands of miles of ocean, is making enormous expenditures on account of war, as the above diagram well illustrates.

One of the most modern of the battleships of the United States Navy is named the North Dakota, after one of the States. She cost \$10,000,000.

The Minneapolis Journal shows what the money expended for this battleship would have accomplished in the State for which she is named. It would have provided a \$25,000 agricultural school and experimental farm in its every county, with an endowment fund of \$175,000 for each school, the interest on which would have provided \$10,500 annually for the maintenance of each school. Additionally, it would have left \$1,000,000 of an endowment for the State Agricultural College.

The situation in Europe is still worse. Does not this preparation of the so-called Christian nations of the world to destroy one another prove that there is a mistake—that the term Christian has been misapplied to them? Nor can we say that there is no danger, for only fear could lead to such costly preparations for war.

Pray For Messiah's Kingdom

The hope for humanity is the Messianic Kingdom. The "mountain of the Lord's house" signifies the Kingdom of God's house, His Church. It will be established in the top of or above the kingdoms of the world. It will be exalted amongst the nations and all peoples will flow to it. There will be an attraction in it for all. It will lead them to climb upward. The attraction which will thus draw mankind will be the blessings of health and restoration, which the Kingdom will be prepared to grant to all peoples as they shall come into harmony with its requirements.—Acts 3:19-23.

That Kingdom will be closely identified with the Zionist movement and the Holy Land. The Kingdom itself will be spiritual, invisible to men, but its earthly agents will be visible and they will be Jewish—"Ye shall see Abraham, Isaac and Jacob and all the Prophets in the Kingdom," etc. (Matt. 23:35) The Jews, already impelled toward the Land of Promise, will go thicker in increasing numbers, and all of the faithful of them will go in sympathy and representatively, through financial assistance. The Israelitish hopes and promises will attract that number strongly first. And gradually all the nations, learning of the grace of God, and the blessings of restitution to be bestowed, will say, "Come, let us go up to the mountain of the Lord and to the house of the God of Jacob; and He will teach us (as well as the Jews of His ways and we will walk in His path."

## WEST VIRGINIA NEIGHBORS.

NEWS FROM COUNTIES JUST  
ACROSS THE RIVER IN  
WEST VIRGINIA.

Ben F. Evans, a well known and formerly of Wayne was sentenced to two years in the penitentiary last Thursday in the Cabell County Court, he pled guilty to a charge of forgery.

Court adjourned last Wednesday evening. There were not many cases tried at this term of court on account of it being a very busy time of the year. In our next issue we will give the proceedings of the entire term.—Wayne News.

There is a movement now afoot to construct a railroad between Hamlin and West Hamlin connecting with the C. and O. R. R. at latter point and for the purpose of conveying freight from West Hamlin to Hamlin together with passengers traveling to the county seat of Lincoln county. For a long time the need of such a line has been sorely felt and especially in the winter time when the bad roads show the transportation rates to such exorbitant figures that the public compelled to use the hacks between the two points felt like rebelling or using dynamite on the job.

West Virginia is one of the richest and most rapidly developing territories in the whole world. Its wealth in coal, gas, oil and lumber and other natural resources, is almost beyond comprehension. Its coal area alone is 6,500,000 acres, each acre being capable of producing 10,000 tons of coal, making 65 billion tons. In 50 years, less than one per cent of this coal has been mined, the remainder of this vast wealth being still in the earth.

The development of the natural resources of West Virginia has resulted in the opening of a great new trade territory tributary to this city. The last census shows that the West Virginia cities are among the fastest growing cities of the United States.

"Millions of dollars worth of merchandise of all kinds, all sorts of manufactured articles, machinery, and supplies of every description are sold in West Virginia annually."

The above is an extract from the advertising literature of the Cincinnati trade boomers, who made such a successful trip recently and shows how this state is regarded by people who are anxious to secure some of our trade.

Knox in a short time will be one of the important centers in the state and the people should be alive to the possibilities of this city. —Tri-State Enterprise.

## HOME CIRCLE COLUMN.

COLUMN DEDICATED TO THIRTEEN  
MOTHERS AS THEY JOIN  
THE HOME CIRCLE.

There is no fault so hard to overcome as the hasty temper. We may make any number of good resolutions, and then the first time we have any provocation away we go without an instant's warning and before we realize what we are doing the unkind words have been spoken, and no matter how much regret we feel they cannot be unsaid.

Children are very observant and even the tiny little ones notice the difference between the smile and the frown on the parent's face. Year by year, as children grow older and the souls, minds and hearts begin to expand under the influence of the environments, sensitive children usually cultivate unconsciously the mother's disposition. The child will be sad and melancholy if the mother sighs and complains. If the child is independent and self-reliant often under such circumstances it will become stubborn and defiant. When the child leaves the childhood behind and becomes a young man or woman then the evil effects of the sad mother becomes still more apparent.

It is in the home that woman rises to her truest heights and wields her widest influence. Every home is a miniature world and the wife is a crowned queen. The wife who makes society and finds of her accomplishments soon finds her husband a devoted club man. The woman who fills her head with many of the ideas and pleasures of much that is called society, soon wants to entertain her husband any evening she may not have some other engagement with cards. She plays just as she did to win some prize at progressive euchre or what parties. She cheats a little, and they have a little spat over it, and then another and another, and presently she fires something at his head but misses it and hits the motto over the door, "God Bless Our Home." Their little boy says, "Ma, you missed pa's head, but you gave the motto hall Columbia." Often the only question to be decided in that home is, "who shall have the boy?" God pity the woman who has set her heart on much that is in modern society.

There are a thousand pretty, engaging little ways, which every person may put on without running the risk of being deemed affected or foppish. The sweet smiles, the cordial bow, the earnest movement in addressing a friend, the inquiring glance, the graceful attention which is so captivating when united with self-possession—these will insure us the good regards of even a churl. Above all, there is a certain softness of manner which should be cultivated, and which, in either man or woman, adds a charm that almost entirely compensates for lack of beauty, and inestimably enhances the latter where it does not exist.

Time was when woman was described as the helpmeet of man. Was it only a phrase, and meaningless? Possibly; but then, words in the Bible mostly did mean something. The time, too, was and yet is in some quarters of the world, when a woman was a helpmeet and accepted and worked up to her position as such. She did not demand everything and do nothing. Why is marriage easy and universal in such a country as Japan? Life there is simple; two or three small rooms, a few dishes, a mat upon which to sleep, one dress, a little rice and some fruit—these suffice for all, rich and poor alike, in a great city like Yeddo, which has a civilization as perfect and as old as ours. And it

is not a life of stupidity or barbarism; all can read and write; manners are good; books and pictures are plenty; theatres abound; processions and festival days enliven life. It is easy to see, therefore, why marriage is not a fearful thing in that far-off land; and by contrast it is easy to understand why few have the courage to dare it here.

Let our homes be places of love, joy and brightest sunshine, places of enduring love that outlasts the wedding day, and which produces a life of one long unbroken honeymoon, the molding place of character, a place where the child breathes an atmosphere perfumed by the choicest flowers of heaven, where it finds the greatest earthly security in mother's loving, fostering care.

There is only villainous abominations in the doctrine that leads a creature, called by courtesy a man, to announce that a transfer of his affections warrants a breach of loyalty and desertions of one who has become his wife and the mother of his children. No guile of prophecy can cover so vile a principle; no charm of poetry gild so hateful a treason, and the breath of perdition is on the lips of all such as advocate anything else than loyalty to wifehood and manhood.

There are few things more tantalizing to a man than to go home with something on his mind he wants to scold about, and find company there, and be obliged to act agreeably.

There is nothing more convenient for the lonely dwellers of the rural districts as well as for the more stilted inhabitants of a town than the telephone. It is really a most obedient and faithful servant, ready to carry our important or unimportant messages without a murmur; it brings and keeps practically the butcher, the baker, the candlestick maker as well as the doctor, the preacher and the merchant at your door.

## THE SPLIT LOG DRAG

TIME AND LIMITATIONS OF THIS DEVICE IN CARING FOR ROADS.

## USE FOR CONVICT LABOR

Shoveling Should Always Be Done Just After a Rain—Good Road Is One That Is Good and Usable 365 Days in Year.

By HOWARD H. GROSS.

There is no road implement that will do more to make bad roads better than the split log drag, and none that is so inexpensive. A handy man can easily get up one at a cost of \$3 or \$4. Better ones can be bought of road machinery companies for \$25 to \$125. There is no patent on it, so there is

Road After Being Dragged One Year—Helen, Ark.

The above road for many years was impassable a large part of the time. A few years ago it was graded as shown—not very well done, however. The surface has been dragged at short intervals for a year. This has kept the road comparatively smooth. While it cannot be called a good road, it is a good example of how a very bad road may be made better with grading and dragging. This road is in Arkansas.

You wouldn't spend it had ever seen a drag. Jones was not when he seen a convict. He tore around like a crazy man. We wouldn't row with an old man, so we give him the hat hat and went on.

It is no use to drag a road and then out it up again. Let all such work be done by day and paid for and make it a heavy fee for any one to drive over a dragged road until it is dry enough so it will not cut up. Gravel roads while new and compacting under the traffic show deep

Road Before Dragging at Columbia, Mo.

This illustration shows a newly made macadam road going through the rutting period. This road apparently was not thoroughly rolled when built. Another illustration shows the same road with the surface broken out with a road drag. This is a good example of the value of the road drag on a macadam roadway. This road is at Columbia, Mo.

into along the wheel track and less done made by the feet of the horses. When in this condition one or two good trips with the drag will fill the ruts and reform the surface and in doing so will move very little material. The forward movement of the drag should be at an angle so that when the material is pushed forward it is also carried to the center of the road.

The office of public roads will for each bulletin upon the use of the road drag free upon application. Road officials and others would do well to read for them.

A good road is one that is good and usable 365 days in the year.

Result of 20 Minutes' Use of Drag at Columbia, Mo.

Spreading road not consolidated being put in shape with a road drag. Note the drag has filled the ruts and moved the loose material towards the center of the roadway. The drag goes forward at an angle for this purpose. The road drag should be used upon gravel or macadam roads only when the road is wet and when it is desirable to fill up ruts.

carry just enough weight so it will smooth the surface and fill the ruts without clogging the drag with an accumulation of mud before it. It should iron out and smooth the road without disturbing more than surface projections. Its main use is to fill the ruts and keep the center of the road to the proper crown so the water will readily find its way into the ditches.

The attempt to have the farmers voluntarily drag the road by their farms, or by co-operation have all the roads dragged, will never work out satisfactorily. Some will respond and do their duty, but the human hog must be reckoned with—the one who is so premeditated, and takes pleasure in overturning the good work of another sometimes just to be mean—pure cussedness. The writer was told of an incident that illustrated this perverse sense. A coarse grained middle aged man was heard to say: "Tother day I was coming back from town and I seen old man Jones out with a road drag, the rain—your'd a thought he owned the road. Say, you ought to aseen that road when me and Jake drove over it."

whereon one may ride or drive with pleasure or have a full load without strain upon the horse, vehicle or harness.

To do this the road must have a hard, smooth surface and offer the minimum of resistance. This requires the surface to be "metaled," as the English say, i. e., covered with gravel, broken stone or an equivalent.

An earth road may be an excellent one today and tomorrow a very bad one. It may be a delight in June and a fright in March. Each road has the virtues of a balky horse—they are liable to fall when most wanted. With a stone or gravel road, lending from the farm, should a heavy rain occur in the busy season, when for a day or so it is too wet to go into the field, the errands to town may be done, several loads of grain or hogs taken to market, and the time well employed. With the average earth road, when the fields are too wet to work, the roads are too muddy to travel. Hence, the writer holds to the opinion above expressed, that no earth road is entitled to be called a good road, because so much of the time it is positively bad.

The extravagant claims that have been made for the road drag are really holding back the building of good roads. Many have believed that all that was required to have good roads was to go up and down a streak of mud once or twice, say "Presto," and behold, a good highway. This is sheer nonsense. The loud acclaim of a "River to River Road," made good in an hour or so is a myth. This famous road was greatly improved by the dragging, but it is not a good road, and never will be until it is thoroughly drained, properly graded and has a hard, durable wearing surface placed upon it.

It is human nature to hunt for some easy, cheap and speedy way to do things, and usually no sooner has one discovered how to make some progress toward a solution, than he announces a complete revolutionary discovery that sets aside all experience and precedent, and gains something for nothing. The split log drag is directly in point.

The people may as well make up their minds now as to find out later, that good roads cost money and lots of it, but they are worth many times their cost and they will pay for themselves over and over again every decade.

A well drained and well built macadam road with a good binder may cost anywhere from \$1,000 to \$6,000 per mile but such a road with moderate repairs will last for generations. Hence the future should bear part of the burden. There is only one sensible, businesslike way to build good roads, and that is, by state aid, where by the state preferably from a long time low rate bond issue, pays part of the expense, and the township issues bonds, running from 20 to 30 years, for its part. In this way all the roads needed in a township—the main roads—can be improved at once, and the payments spread over the present and the coming generations.

By building all at once from ten to twenty per cent can be saved in the cost of the work, and the community has the roads to use from the start. Of course interest must be paid on the bonds, but against this goes the use of the roads. If this is not worth more than the interest it is better not to build the roads. The road question is a big one and must be handled in a big way.

## ALMOST CAPTURED BIG PRIZE

McCurdy Was Within Ten Miles of Havana When the Lubricating Oil Gave Out.

Aboard the Paulding a seaman, having no glasses at all, shouted: "There he is!"

There he was, two streaks of black against the sky. He had come over the slow boats, passed all the destroyers except the Paulding, and was sailing surely toward a waiting Havana, with only one destroyer—a mere ten minutes or so—between. McCurdy's two mechanics aboard the Paulding began to grin. Make it? Of course he would! Everything was evidently working well; and ten minutes—only ten minutes—would see the man landed safely in Havana, with the big prize to his credit. McCurdy was coming strong. Every moment he was growing blacker and bigger against the sky.

The Cuban coast—the smoke of the city was within sight.

And then—

"My God!" somebody said. "he's fallen."

This was true. The man had fallen. There was no bird-like speck in the sky. The man had fallen. The Paulding was already turning, at 30 knots, to pick him up; and the Terry was steaming straight on for the same purpose. There had been an accident; the lubricating oil had slipped away and the engine was burning to pieces. There was nothing for it but to descend; and this McCurdy did liberally, waiting patiently, as he stood on the seat of the airship, for rescue. When a boat from the Terry picked him up—the Paulding was only a moment later—he said: "Dashed hard luck! Why, I could see Havana!"

He was only ten miles off.

"Dashed hard luck!" he repeated.

He hadn't met his feet—Norman Duncan, in Harper's Weekly.

Quite Literal.

She (indignantly)—Look at this piece of goods which has just come out of the wash! How could the man who said it to me tell me the colors were fast?

He—I suppose because he knew how they could run.

## WHY BATTLESHIP WAS SENT

Because of Misinterpreted Cipher Message the Maine Went to Havana.

Probably very few know that the Maine had been hurried to Havana because of a misinterpreted cipher message. Mr. John H. Caldwell, who had been in charge of the Havana bureau, and whom I relieved, told me that several days prior to my arrival he had made requisition upon the office for a revolver. There had been strenuous times in the Cuban capital, riots had been frequent, the lives of foreigners, particularly those of Americans, had been more than once placed in jeopardy, and the time had come when correspondents felt the need of firearms to protect their lives. The revolver sent to Mr. Caldwell was assigned to him by a passenger on the steamship Olivette, to whom the weapon had been entrusted by an agent of the paper in Tampa. By some oversight no cartridges had been sent with it, and it being impossible to secure any in Havana, the correspondent cabled to New York. "Camera received, but no plates; send by next post."

Through some strange error on the part of the one who received it, the cryptogram was construed to be a cipher and was translated to read that an attempt had been made on the life of Gen. Fitzhugh Lee, American consul general in Havana. This misinformation went to Washington and reached there after the Havana cable had closed. Early the next day Mr. Caldwell received from the Herald the following cryptogram: "Send story and pictures ordered on food supplies; we want it for main sheet." By applying the cipher key, the first sentence was readily translated to read: "A United States warship has been ordered to Havana." The second evidently conveyed some hint which was beyond the limitation of the code, but the word "main" gave the clue. Meeting General Lee at breakfast that morning, Mr. Caldwell quietly informed him that the Maine was on her way to Havana. The general was incredulous. No warship, he assured the correspondent, would be sent to Havana unless he requested it.—Walter Scott Meriwether, in Harper's Weekly.

## A Wish Gratified.

"Jiggs used to tell me that the dream of his life was to live some day in a big house on a hill."

"Poor fellow." And now he is in the state penitentiary.

"True, but that is a big house and it happens to be on a hill."

## Uses of Paper Metal.

At the great coronation pageant, which will be next June when George is crowned King George IV of England, there is to be something entirely different from anything that has ever happened before.

Instead of real armor the armor that is to be worn will be made of "paper metal." There will be exact copies of all the old sets of armor used and the paper metal will be so fixed that the armor made from it will give the appearance of the original.

And it is said that in the future the "metal" will be used for almost all outdoor decorations, because it is much cheaper than plaster paris and also is waterproof.

It can be made to represent all the different metals and is so strong that one can jump on it without making any impression on it.

## Planning the House.

"Well," said Gifford Berrington, cheerfully, "I've got the plans for my new house on the lake shore all finished."

"Finished to suit you?"

"No. But the architect is satisfied and that's the best I can expect."

"Ha, ha! How about Mrs. Berrington?"

"It's all right with her, too. In fact, she got that fixed before we started. You see, she laid out the cupboards and wardrobes, and all the architect had to do was to build a house around them."—Cleveland Plain Dealer.

## Old World Castle on the Hudson.

Washington Heights is to have a castle like those of the old world. Plans are being prepared for Commodore Celestino Piva, a wealthy importer of raw silk and a member of Givernaud Brothers. It is to be erected on the high bluff overlooking the Hudson river and the Palisades, just back of the historical Arrowhead Inn.

The property comprises more than twenty lots, being part of the former McCormick tract.

The castle is to be surrounded by Italian gardens, and the slope of the bluff is to be terraced and winding roads built to reach the castle from the boulevard. The building itself will be a three-story affair, with two look out towers at either end and a large pergola at the north end. Italian Renaissance will be the architecture of every detail of the exterior and interior.—New York Tribune.

## Not Perfect.

A horse dealer was showing a horse to a prospective buyer. After running him back and forward for a few minutes, he stopped and said to the buyer: "What do you think of his coat? Isn't he a dandy?"

The buyer, noticing that the horse had the heaves, replied: "Yes, I like his coat, all right, but I don't like his pants."—Tit-Bits.

## Our Varying Moods.

"Ten, environment does influence us."

"How now?"

"You never see a man coming out of church with his hat perched on the side of his head."

## QUEEN OF ACTRESSES PRAISES PE-BU-NA.

"I am glad to write my endorsement of the great remedy, Pe-Bu-Na. I do so most heartily."—Julia Arthur. Any remedy that benefits digestion strengthens the nerves. The nerve centers require nourishment. If the digestion is impaired, the nerve centers become anemic, and nervous debility is the result.

## Don't Take It For Granted

Just because you are in business, everybody is aware of the fact. Your goods may be the finest in the market but they will remain on your shelves unless the people are told about them.

## ADVERTISE

If you want to move your merchandise, reach the buyers in their homes through the columns of THIS PAPER, and on every dollar expended you'll reap a handsome dividend.
